

Finishing **PROTECTED LIGHT MOTH-EATEN PELTROX®**
Code **GF00002**
Family **PELTROX**
Category **34**

Materials

- Stainless steel

Availability

- Sheet

Description

A soft, light shade of Peltrox®, with a vintage and traditional pewter look. Made on a stainless steel base and enhanced by moths, giving contrast of color with the light part. The protective treatment improves the material's scratch resistance, making it suitable for home furnishings.

Use

- Indoor
- Horizontal surfaces
- Vertical surfaces

Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view.

Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
