

## FINISH DATASHEET

Finishing **GLASS-LINED LIGHT MOTH-EATEN PELTROX®**  
Code **GF00003**  
Family **PELTROX**  
Category **38**

### Materials

- Stainless steel

### Availability

- Sheet

### Description

A soft, light shade of Peltrox®, with a vintage and traditional pewter look. Made on a stainless steel base and enhance by moths, giving contrast of color with the light part. The Glass-line treatment makes Peltrox® suitable for kitchens, as it becomes resistant to the most common acid agents.

### Use

- Indoor
- Outdoor
- Horizontal surfaces
- Marine environment
- Vertical surfaces
- Food use
- Intensive use

### Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

### Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
