

## FINISH DATASHEET

Finishing TITANIOX®  
Code GF00011  
Family PELTROX  
Category 34

### Materials

- Stainless steel

### Availability

- Sheet
- Tube

### Description

The allure of titanium recreated on stainless steel. A technical and material color with light and dark shades on stainless metal. Depending on the use, it can also be chosen in the Glazed version, a treatment that makes the Titaniox® finish suitable for use in the kitchen environment capable of resisting the most acidic agents typically used, or Protected, giving the material an increased resistance to scratches, making it more suitable for home furnishing environments.

### Use

- Indoor
- Horizontal surfaces
- Vertical surfaces

### Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

### Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
