

Finishing **GLASS-LINED TITANIOX®**  
Code **GF00013**  
Family **PELTROX**  
Category **42**

#### Materials

- Stainless steel

#### Availability

- Sheet
- Tube

#### Description

The charm of titanium recreated on stainless steel. A technical and materic color with light and dark shades on stainless metal. The glass-line treatment makes Titaniox® suitable for kitchens, as it becomes resistant to the most common acid agents.

#### Use

- Indoor
- Outdoor
- Horizontal surfaces
- Marine environment
- Vertical surfaces
- Food use
- Intensive use

#### Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

#### Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
