

## FINISH DATASHEET

Finishing **GLASS-LINED BRUSHED PELTROX®**

Code **GFO0019**

Family **PELTROX**

Category **38**

### Materials

- Stainless steel

### Availability

- Sheet
- Tube

### Description

The delicacy of the satin fine filing combined with the materic and vintage color of pewter, increasing its elegance and refinement. The glass-line treatment makes Brushed Peltrox® suitable for kitchens, as it becomes resistant to the most common acid agents.

### Use

- Indoor
- Outdoor
- Horizontal surfaces
- Marine environment
- Vertical surfaces
- Food use
- Intensive use

### Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. Always follow the direction of the satin finish. It is advisable to test any new cleaning agents on areas which are not on view.

### Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
