

Finishing **GLASS-LINED BRITANNIOX PELTROX®**
Code **GFO0025**
Family **PELTROX**
Category **42**

Materials

- Stainless steel

Availability

- Sheet

Description

This materic Peltrox® finish includes mirror reflections for this finish, which recalls the homogeneous alternation of small dark-light volcanic eruptions on the surface, Britanniox Peltrox®. The glass-line treatment makes Peltrox® suitable for kitchens, as it becomes resistant to the most common acid agents.

Use

- Indoor
- Outdoor
- Horizontal surfaces
- Marine environment
- Vertical surfaces
- Food use
- Intensive use

Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
