

**Finishing** EMBOSSED ALUMINIUM**Code** GF00097**Family** POWDER COATING**Category** 10**Materials**

- Stainless steel
- Steel
- Alluminio

**Availability**

- Sheet
- Tube

**Description**

A grey color that recalls aluminium to cover and decorate metal surfaces. A rough to the touch, embossed powder coating also available in its semi-glossy version.

**Use**

- Indoor
- Horizontal surfaces
- Vertical surfaces
- Intensive use

**Cleaning and maintenance**

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

**Warnings**

To preserve the finish, it is advisable to avoid solvents such as denatured alcohol or ammonia; abrasive materials (e.g. sponges) or products with micro particles, as they will scratch the surface; products containing chlorates (e.g. bleach); aggressive cleaning agents even if they are specifically for metal (like Smac), as they will damage the surface. Prolonged contact with some substances can generate halos. It is advisable to rinse thoroughly in case of spillage on the surface
