Code **GFO0134**
Family **POWDER COATING**
Category **18**

Materials

- Stainless steel
- Steel
- Alluminio

Availability

- Sheet
- Tube

Description

A perfect balance between sobriety and liveliness. The classic dark grey anthracite color combined with a glitter touch creates an explosion of joy and brightness. The glitter particles reflect the light and create plays of reflections and shadows, making the color even more captivating and fascinating.

Use

- Indoor
- Outdoor
- Horizontal surfaces
- Vertical surfaces
- Intensive use
- Marine environment

Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

Warnings

To preserve the finish, it is advisable to avoid solvents such as denatured alcohol or ammonia; abrasive materials (e.g. sponges) or products with micro particles, as they will scratch the surface; products containing chlorates (e.g. bleach); aggressive cleaning agents even if they are specifically for metal (like Smac), as they will damage the surface. Prolonged contact with some substances can generate halos. It is advisable to rinse thoroughly in case of spillage on the surface
