

Finishing **SILK TITANIUM**Code **GFO0201**Family **SILK**Category **26****Materials**

- Stainless steel
- Steel
- Alluminio

**Availability**

- Sheet
- Tube

**Description**

Refined and elegant, it recalls quartz crystals with their thousand colors and shapes, sometimes clear and transparent, sometimes rich in the various shades of pink. The base is as smooth as silk, and immediately recognizable by touch, giving it a unique effect.

**Use**

- Indoor
- Horizontal surfaces
- Vertical surfaces

**Cleaning and maintenance**

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view. For stubborn dirt we recommend specific professional cleaning agents suitable for painted surfaces.

**Warnings**

To preserve the finish, it is advisable to avoid solvents such as denatured alcohol or ammonia; abrasive materials (e.g. sponges) or products with micro particles, as they will scratch the surface; products containing chlorates (e.g. bleach); aggressive cleaning agents even if they are specifically for metal (like Smac), as they will damage the surface. Prolonged contact with some substances can generate halos. It is advisable to rinse thoroughly in case of spillage on the surface
