

Finishing **STAINED PELTROX®**

Code **GFO0241**

Family **PELTROX**

Category **34**

#### Materials

- Copper

#### Availability

- Sheet
- Tube

#### Description

This very matric version of Peltrox® comes from the colors of the earth, where grey and brown are mixed, giving the finish an antiqued effect. Depending on the use, you can choose 3 versions: -"Natural", for both indoor and outdoor use - "Glass-lined", a treatment that makes the Stained Peltrox® finish suitable for use in the kitchen environment, being resistant to the most common acid agents. "Protected", improving the material's scratch resistance, and making it more suitable for home furnishing environments.

#### Use

- Indoor
- Horizontal surfaces
- Vertical surfaces

#### Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

#### Warnings

To preserve the finish, it is advisable to avoid products containing muriatic acid, bleach or chlorine in general, as they can change the colour of the finish; deoxidising creams (like Smac), aggressive solvents such as ammonia or anti-limescale; abrasives (e.g. sponges) or products with micro particles, as they can scratch the surface. Prolonged contact with some substances generates generally light-coloured discolourations. It is advisable to rinse thoroughly in case of spillage on the surface.
