

Finishing **PROTECTED STAINED BRASS**Code **GFO0252**Family **BRASS**Category **46**

Materials

- Brass

Availability

- Sheet
- Tube

Description

Among the most precious metals, brass lends an aesthetic impact rich in history and tradition. Warmer shades mingle with more intense brown ones, creating an antiqued effect and an alternation of light and dark on the surface. Its protection preserves the material from natural oxidation over time, making it more resistant to scratches and suitable for environments in the home furnishing

Use

- Indoor
- Horizontal surfaces
- Vertical surfaces

Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view

Warnings

To preserve the finish, it is advisable to avoid abrasives, as they can scratch the surface; acids, as they could facilitate oxide formation; products containing bleach or chlorine; solvents. If these substances come in contact with the surface, rinse thoroughly. Prolonged contact with some substances can generate halos. It is advisable to rinse thoroughly in case of spillage on the surface.
