

Finishing **PROTECTED STAINED COPPER**Code **GFO0540**Family **COPPER**Category **46**

Materials

- Copper

Availability

- Sheet
- Tube

Description

From precious copper arise warm shades in which the typical red of the finish mixes with the deeper color of oxidation, giving it a lived-in and refined effect. Its protection preserves the material from natural oxidation over time, making it more resistant to scratches and suitable for environments in the home furnishing.

Use

- Indoor
- Horizontal surfaces
- Vertical surfaces

Cleaning and maintenance

Use a cotton or microfibre cloth dampened with water and neutral detergent, rubbing it all over the surface. Remove the remaining detergent with a clean cloth dampened only with water. Then, dry the surface. It is advisable to test any new cleaning agents on areas which are not on view.

Warnings

To preserve the finish, it is advisable to avoid abrasives, as they can scratch the surface; acids, as they could facilitate oxide formation; products containing bleach or chlorine; solvents. If these substances come in contact with the surface, rinse thoroughly. Prolonged contact with some substances can generate halos. It is advisable to rinse thoroughly in case of spillage on the surface.
